There was a time
Not so long ago
Girls are nothing more then a little fun
'Til you caught my eye
Now all I see is you
Never thought I'd be a fool in love

Well I spilled coffee
On my favourite shirt
Forgot to tie my shoes
I don't know why
I started think
Since you came around
I've never been so helpless in my life

And I blame you you you
You and that dress of yours
I blame you you you
You and that smile
I blame you you you
I can't find another reason
I just go to pieces over you

I called my best girl

By your name today

Course your the only one that's on my mind

Now she's my ex-girl

She took a swing at me

Now you know how I got this black eye

And I blame you you you
You and that dress of yours
I blame you you you
You and that smile
I blame you you you
I can't find another reason
I just go to pieces over you

Yeah

I'll take the bruises baby
If I got you to save me
I'm going head over heels

And I blame you you you
You and that dress of yours
I blame you you you
You and that smile
I blame you you you
I can't find another reason
I just go to pieces over you

Yeah I blame you you you You and that dress of yours I blame you you you You and that smile I blame you you you I can't find another reason
I just go to pieces over you
