

Blush (Only You)

Plumb

When you look at me I start to blush
and all that I can say is you and us
oh baby I'm so afraid to be in love
with you, with you...

I wanna be in love with only you
I wanna watch the sky turn grey then blue
I wanna know the kiss thats always new
I wanna be in love with only you
just you

When stars are falling dark
will light the way
will hit the ground and fall
into the shade
ill light the night with fire
and run away

I wanna be in love with only you
I wanna watch the sky turn grey then blue
I wanna know the kiss thats always new
I wanna be in love with only you

I wanna be in love with you
I wanna be in love (I wanna be in love)
I wanna be in love with you
I wanna be in love (I wanna be in love)

I wanna be in love with you...

I wanna be in love with only you
I wanna watch the sky turn grey then blue
I wanna know the kiss thats always new
I wanna be in love with only you

Just you
I wanna be
just you yeah
