

I watched you sit alone  
I watched you cry your eyes out  
Now tell me what you've done

Is it so bad that  
I would shut you out  
And leave you here alone

Yes, i saw what you did  
I was right there with you  
I won't let you sink  
No, i forgive you

Phobic  
Don't be  
Grace needs a little more freedom  
Phobic  
Don't be  
Love needs room to breathe

I have watched you grow

And i've stood in your shadow  
I've never walked away

I hung the stars and  
I hold your heart  
So, don't ever be afraid

Yes, i know when you breathe  
And i feel when you need  
I won't let you sink  
No, i forgive you

You can be healed  
You can be free  
You can know peace  
Never be afraid again

Never be afraid  
Never be afraid  
He's here
