

## Sent Angels

Plumb

Send angels, send angels, send angels  
Show me you love me  
Send angels, send angels, send angels  
Show me you love me

He felt alone and aging unkind  
He knew there was trouble with this war inside  
So to feel young he did what he felt best  
Emptiness filling every vein  
He must be going insane  
To leave an entire world behind

[Repeat Chorus]

Crying the tears he lost as a child  
He couldn't even recognize  
The frail and injured man that he'd become  
Traces of his compromise  
Shattering his desperate tries  
Everyone makes a mistake now and then

[Repeat Chorus]
