

We Stand For You

Plumb

On a rugged cross
Punished for our sin
You triumphed over death
And we're forgiven
You rose from the dead
Now there's an empty grave
Darkness could not hold
The God who came to save

So we stand for You
We lift our hands to You
We'll do anything for You
Oh God, You fought for us
You bled and died for us
You conquered hell and tore the veil
Oh we stand

You created us
And give us a choice
Oh You chase after us
Till we hear Your voice
And when we get lost
You come to where we are
Until You bring us back
With Your scars

So we stand for You
We lift our hands to You
We'll do anything for You
Oh God, You fought for us
You bled and died for us
You conquered hell and tore the veil
Oh we stand

We won't apologize, we won't think twice
Oh, we realize what You did when You died
You're the God who saves, the God who makes a way
You're the God who can do anything

We won't apologize, we won't think twice
Oh, we realize what You did when You died
You came back to life
You came back to life

So we stand for You
We lift our hands to You
We'll do anything for You
Oh God, You fought for us
You bled and died for us
You conquered hell and tore the veil
Oh we stand
