

I Won't Forget This Christmas

Plus One

What if there was no manger
No wise men
No Savior
Just another day
In December
I'd be hopeless
Oh so hopeless
But on that day
With the Angels
Watching
Creation waiting
He came as a baby
And like an echo
Across the world
A cry was heard
And changed everything
So I won't forget this Christmas
That I am nothing without you
You are the star
That guides my heart
I won't forget (I won't forget)
This Christmas
Should I get distracted
Bring me back to
What matters
All the presents they
They will fade away
You are forever
Oh you're forever
'Cause nothing compares
To the gift you gave
My life you saved
And so I promise you
I won't forget this Christmas
(This Christmas)
That I am nothing without you
You are the star
That guides my heart
I won't forget (I won't forget)
This Christmas
La la la la
I will not forget
La la la la
What you did
'Cause you are the life and
The breath
The reason I exist
You know I won't forget
So, I won't forget this Christmas (no oh)
That I am nothing without you (nothing without you)
You are the star (You are the star)
That guides my heart (that you guide my heart)
I won't forget (I won't forget)
This Christmas
I won't forget this Christmas (this Christmas)
(I'll never forget it)
That I am nothing without you (I am nothing without you)

You are the star (You are the star)
That guides my heart (that guides my heart)
I won't forget (I won't forget)
This Christmas
