

My Friend

Plus One

We are standing at the crossroads
And now it's time
For you to go your way
And me to go mine
I will pray the Lord
Will keep you safe
Until the day I see your face again

[c h o r u s]
My friend
We have been through so much
And you have been my Godsend
With your sure and steady love
My friend
You know I will be there
If you ever need
'Cause you've always
Been a friend to me

I may travel the world over
But one thing I know for sure
One day this road will lead me
Back 'round to your door
I will pray the Lord
Will keep you safe
Some bonds are just too strong
To break in the end

[c h o r u s]

Nothing will change the way
I feel about you
Not the miles or the years
Or the place this life takes me to
