

## Start To Fly

Plus One

You've had your taste of all that's sweet  
Now you're through and what does it mean  
You've sought the truth, found a lie  
You've given up but it doesn't make it right

You wanna go, I know you wanna leave  
Ya' gotta go, farther than you see

[Chorus:]

If you just look past your scars  
You will see it's not that far  
Don't close your mind  
Let God inside  
Begin to breathe, Start to fly  
Start to fly

Wake up from your sleep,  
start your dream  
It's okay to believe what you don't see  
Give it away, your heart  
won't break  
This is a chance that you're gonna have to take

You wanna go, I know you wanna leave  
Ya' gotta go, farther than you see

[Repeat Chorus]

Just close your eyes, hold on tight  
You don't have to be afraid  
He is with you all the time  
You'll be free, full of peace  
And everything that you need,  
it is right there can't you see

[Breakdown]

[Repeat Chorus]
