You've had your taste of all that's sweet Now you're through and what does it mean You've sought the truth, found a lie You've given up but it doesn't make it right

You wanna go, I know you wanna leave Ya' gotta go, farther than you see

[Chorus:]

If you just look past your scars You will see it's not that far Don't close your mind Let God inside Begin to breathe, Start to fly Start to fly

Wake up from your sleep, start your dream It's okay to believe what you don't see Give it away, your heart won't break This is a chance that you're gonna have to take

You wanna go, I know you wanna leave Ya' gotta go, farther than you see

[Repeat Chorus]

Just close your eyes, hold on tight You don't have to be afraid He is with you all the time You'll be free, full of peace And everything that you need, it is right there can't you see

[Breakdown]

[Repeat Chorus]
