

This Is Christmas

Plus One

They wished upon a star,
Three wisemen traveled far to see,
A babe who was born to be King,
A dream in heavens dreams,

That made the profits words complete,
And the angels began to sing,
We look to the sky,
Follow the light,

Love's greatest gift had come to us that night,
Can you feel the spirit in the air, giving love to people everywhere,
Celebrate our Saviors here,
This is Christmas,

Hallelujah's echoing tonight,
Now everything will be alright,
Celebrate our saviors here,
This is Christmas,

I know you've seen sometimes, when joy has been so hard to find,
And life seems to take all your faith,
But we're dreaming heavens dreams, and we're finding hope within our heart,
To believe that there's more than we see,

We look to the sky,
Follow the light,
Loves greatest gift has come again tonight,
Can you feel the spirit in the air, giving love to people everywhere,

Celebrate our Saviors here,
This is Christmas,
Hallelujah's echoing tonight,
Now everything will be alright,

Celebrate our saviors here,
This is Christmas,
There's no greater gift then the life that you gave,
All the hatred, rearranging,

Spread all the love,
Spread all the love,
Can you feel the spirit in the air, giving love to people everywhere,
Celebrate our Saviors here,

This is Christmas,
Hallelujah's echoing tonight,
Now everything will be alright,
Celebrate our saviors here,

This is Christmas,
Can you feel the spirit in the air, giving love to people everywhere,
Celebrate our Saviors here,
This is Christmas,

Hallelujah's echoing tonight,
Now everything will be alright,

Celebrate our saviors here,
This is Christmas,

Can you feel the spirit in the air, giving love to people everywhere,
Celebrate our Saviors here,
This is Christmas,
Hallelujah's echoing tonight,

Now everything will be alright,
Celebrate our saviors here,
This is Christmas.
