

Better Way

Pnau

There's a figure in my mind and you know I am inspired
And I'm dancing to the music and it hits me automatic
There's an albatross 'round my neck

There's gotta be a better way
There's gotta be a better way
There's gotta be a better way
There's gotta be a better way

Promises, promises. We don't need these
Promises, promises, fed on dreams and
Promises, promises.
make no break, no
Promises, promises.

There's a singer on the rise, you can see it in their eyes
You've to go what moves you
And makes you feel electric, totally get connected

There's gotta be a better way
There's gotta be a better way
There's gotta be a better way
There's gotta be a better way

Promises, promises. We don't need these
Promises, promises, fed on dreams and
Promises, promises.
make no break, no
Promises, promises.

Promises, promises.
Promises, promises.
Promises, promises.
Promises, promises.

There's gotta be a better way
There's gotta be a better way
There's gotta be a better way
There's gotta be a better way.
