

Waiting For You

Pnau

I will never leave you, if you don't see you, you're inside of me

Each time I breathe, when I feel your presence
Overcoming me, there is no need
To change the way I feel for you

Just slide between the sheets again
A special place for you, my friend
Your melody's inside my head
It plays again

Winter wind keeps blowin'
Energy keeps flowin' round the world
And all is love
To the loudest volume
Through the deepest oceans everywhere
Somewhere somehow I know you're here

Just slide between the sheets again
A special place for you, my friend
Your melody's inside my head
It plays again

In my darkest hour, when I'm all alone your
Silent song sings to me
And so many times I've fallen short
Of what I want to be
Take me away to that better place

Just slide between the sheets again
A special place for you, my friend
Your melody's inside my head
It plays again

'Cause I'm waitin' for you, you know
'Cause I'm waitin' for you
