

A Fool's Paradise

Poco

I don't care what your man is sayin', he don't know what it's all about

He says one thing when you're lookin' and another when you turn around

Don't get caught up in emotion and how good it used to be
Just remember there's a reason, that's the way it has to be

Now don't you believe him, just take this advice
And don't look for rainbows in a fool's paradise

High up on a distant mountain, he sits lookin' down on you and me

Says it doesn't really matter to him, he knows how it's got to be

See it in his way or forget it, he don't need to come around
Anytime he's got the feelin', he knows that he's got the sound

I don't care what the man is sayin', he don't know what it's all about

He says one thing when you're lookin' and another when you turn around

Don't get caught up in emotion and how good it used to be
Just remember there's a reason, that's the way it has to be

No you just can't believe him, so take this advice
And don't look for rainbows in a fool's paradise
