

A Little Rain

Poco

The curtain in the window can't hide the sweet refrain
July leaves are dancin' in the early mornin' rain
You're here beside me right where you belong
nothin' in the world could break a love that is so strong

There may be some stormy days
standing in our way
But baby please have faith in me
believe me when I say
A little rain don't bother me
A little rain don't bother me

Clothes out on the clothesline hangin' in the rain
waitin' for the sunshine to come their way again

I could tell you dark clouds will never come our way
but I know you and you wouldn't buy
a single word I say

Now every crash of thunder fades into a sigh
and every drop of rain that falls gets a chance to fly
