

## Indian Summer

Poco

There's a full moon in the sky  
It's got a hold on me, I'm hypnotized  
Like your love it's getting stronger  
Please keep my heart a little longer

Indian summer is on it's way  
It's cool at night and hot all day  
Ain't no black clouds filled with rain  
Santa and wind blew them all to Maine

Baby takes my hand  
She says she understands  
About the way I feel  
She knows this love is real

I'm a wide open spaced cowboy  
I got lazy ways, I got some hidden joy  
Motorcycle and tons of R.P.M  
Ain't gonna wait around till it's here again

Baby takes my hand  
She says she understands  
About the way I feel  
She knows my love is real

And Indian summer is on it's way  
It's cool at night and hot all day  
There ain't no black clouds filled with rain  
Santa and wind blew them all to Maine  
Blew them all to Maine

...
