

Never Get Enough

Poco

Hey baby I know you know I love you
But I think you think I play it cool
Girl, you'd change your mind in no time
If you only knew
How I'm ate up, tore down, done in, strung out
I never get enough, never get enough
You're the sugar for my sweet tooth
I'm addicted if you want the truth
For every little kiss
I need another one
I never get enough
Never get enough of your love
Baby I'm not sayin' my cup's half empty
If I died tonight, I'd go contently
One thing for sure, I've got more
Than I'll ever need
Got a full plate, but still
A big heart to fill
