

There Goes My Heart

Poco

There goes my heart I feel it breaking fast
Should have known from the start
That it could not last
When you build on dreams and other things
That love won't bring
There goes my heart
Breaking me down again it happens every time

Wondering will it ever end
I'm going out of my mind
Worried and wasted now
Will we ever get it back somehow
Here in this lost and found
There goes my heart

Building on dreams and other things
That love won't bring
There goes my heart
Breaking me down again it happens every time

Wondering will it ever end
I'm going out of my mind
Worried and wasted now
Will we ever get it back somehow
Here in this lost and found
There goes my heart
There goes my heart
