

## Who Else

Poco

Who else has your heart tonight, who else (who else)  
Who else stays awake all night, who else

If a picture says a thousand words,  
you don't have to say a thing  
'Cause I can see it in those big green eyes  
You can't hide what you can't explain  
it's right there in your eyes

I hear a whisper softly in my ear,  
a little voice that tries to say  
Don't let her go now, she's so good for you  
You'd be a fool to let her walk away  
don't let her walk away

I don't wanna be the last to know, oh no
