

# Pinned Down / I'm Alone In The Wilderness

The Pogues

(I'm alone in the wilderness...)

Fucked Up  
Set up  
Faced up  
Jacked up  
Sitting there in chokey  
14 years old

No lock on the door  
But no way out  
No joking  
No hoping  
No nothing  
Pinned Down.

(I'm alone in the wilderness...)

Fat greasy shrinks  
Complacent bastards  
Got no reason  
For the things  
They ask you  
Put away in a hole  
Till you're ready  
For jail and the dole  
Take away your soul  
Pinned Down.

(I'm alone in the wilderness...)

Wake up  
and your heart's not beating  
Try to say something  
But they got you beaten  
You try to take it  
Away from them  
Once, and twice  
And then again and  
Again and again, again.  
Jump out of the window  
Slash your wrists  
When all you really wanted  
Was to screw and get pissed.  
And the sky goes black  
But you can't go back  
And the way ahead just leads to  
The Chandler Clinic.  
And there's nothing in there  
Except madness and despair

(I'm alone in the wilderness...)

Dehydration  
Humiliation  
Degradation  
Mind castration

And the sky is black  
And the one next to you  
Keeps thinking they're having a heart attack.

(I'm alone in the wilderness...)

Desolation  
On medication  
Nurse nurse nurse  
can't sleep easy  
Nurse nurse nurse  
are you fucking with me  
ECT fuckin' did a thing on me  
ECT did a job on me  
ECT did a job on me  
ECT did a job on me.  
Pinned Down  
Pinned Down.

(I'm alone in the wilderness...)  
Pinned Down.  
(I'm alone in the wilderness...)  
Pinned Down.
