

Day By Day

Point Of Grace

I'm not unhappy but I'd take the train today
If You'd let me, if You'd let me
They may be clapping for me but I wait for You to come get me
Come, come get me

'Cause day by day You're coming closer
Making our way clearer and straighter
Turning our faces into the light
And I can't wait to fall at Your glory
On my face, God of the morning
You're coming closer day by day

Somebody told me I could travel the world
To find beauty, to find beauty
But to behold it I would have to keep it within me
Yeah, well it's in me

'Cause day by day You're coming closer
Making our way clearer and straighter
Turning our faces into the light
And I can't wait to fall at Your glory
On my face, God of the morning
You're coming closer day by day

Give me a mission if I've still got the time
'Cause I'm open, yeah I'm open
Be my vision and I'll be Your delight
'Cause I'm going wherever You're going

Turning faces into the light
And I can't wait to fall at Your glory
On my face, God of the morning
You're coming closer day by day

'Cause day by day You're coming closer
Making our way clearer and straighter
Turning our faces into the light
And I can't wait to fall at Your glory
On my face, God of the morning
You're coming closer day by day

'Cause day by day You're coming closer
Making our way clearer and straighter
Turning our faces into the light
And I can't wait to fall at Your glory
On my face, God of the morning
You're coming closer day by day
