

## Day By Day

Point Of Grace

I'm not unhappy but I'd take the train today  
If You'd let me, if You'd let me  
They may be clapping for me but I wait for You to come get me  
Come, come get me

'Cause day by day You're coming closer  
Making our way clearer and straighter  
Turning our faces into the light  
And I can't wait to fall at Your glory  
On my face, God of the morning  
You're coming closer day by day

Somebody told me I could travel the world  
To find beauty, to find beauty  
But to behold it I would have to keep it within me  
Yeah, well it's in me

'Cause day by day You're coming closer  
Making our way clearer and straighter  
Turning our faces into the light  
And I can't wait to fall at Your glory  
On my face, God of the morning  
You're coming closer day by day

Give me a mission if I've still got the time  
'Cause I'm open, yeah I'm open  
Be my vision and I'll be Your delight  
'Cause I'm going wherever You're going

Turning faces into the light  
And I can't wait to fall at Your glory  
On my face, God of the morning  
You're coming closer day by day

'Cause day by day You're coming closer  
Making our way clearer and straighter  
Turning our faces into the light  
And I can't wait to fall at Your glory  
On my face, God of the morning  
You're coming closer day by day

'Cause day by day You're coming closer  
Making our way clearer and straighter  
Turning our faces into the light  
And I can't wait to fall at Your glory  
On my face, God of the morning  
You're coming closer day by day
