

# Do It Again

Point Of Grace

Just when I think it couldn't be  
Any harder down here  
Another blow comes out of nowhere  
And knocks me out again

And when I think I'm all alone  
The phone starts to ring  
It's just the voice I needed to hear  
On the other end

You do it again, you do it again  
You speak to me just like a friend  
You always seem to show up right on time  
You do it again, I guess you know when  
My heart needs to hear your voice  
I'm so forgetful, that's why I'm thankful  
You do it again

I could be driving in my car  
I turn the radio on  
Trying to figure out my thoughts  
And then I hear the perfect song

I can open up your word  
And not be sure where to turn  
I start to read and it's like you know  
Just what I need

You do it again, you do it again  
You speak to me just like a friend  
You always seem to show up right on time  
You do it again, I guess you know when  
My heart needs to hear your voice  
I'm so forgetful, that's why I'm thankful  
You do it again, do it again

You use all these things to speak to me  
Could it be you're using me  
In someone else's life  
Well I wouldn't be surprised

Do it again  
You speak to me just like a friend  
You always seem to show up right on time  
You do it again, I guess you know when  
My heart needs to hear your voice  
I'm so forgetful, that's why I'm thankful  
Do it again

Do it again, do it again  
You speak to me just like a friend  
You always seem to show up right on time  
You do it again, I guess you know when  
My heart needs to hear your voice  
I'm so forgetful, that's why I'm thankful

You use all these things to speak to me

Could it be you're using me  
In someone else's life  
Well I wouldn't be surprised
