

# Free Indeed

## Point Of Grace

Can you think of the way that we used to be  
We were young, full of hopes and full of dreams  
Look around what has happened in between  
Living life can steal your hope away it seems

Dream again  
Oh, you're like a child who's waiting to become

The Son has come to free us  
So set your eyes on Jesus  
Your free now

To love as He has loved you  
To live like He's among you  
To dream now  
Know that you are free indeed

When your world is a dark and a lonely place  
Turn your eyes from yourself and seek His face  
There's a hope in His open arms you'll find  
And a peace that's gonna free your heart and mind

Breathe again  
Oh, you're free to fly and young enough to run

If the Son has come to free us  
So set your eyes on Jesus  
Your free now  
Know that you are free indeed

To love as He has loved you  
To live like He's among you  
To dream now  
To know that you are free indeed

The Son has come to free us  
So set your eyes on Jesus  
Your free now  
To know that you are free indeed

To love as He has loved you  
To live like He's among you  
To dream now  
To know that you are free indeed

But for me to live is Christ  
That would be no sacrifice  
I freely give Him all my life

The Son has come to free us  
So set your eyes on Jesus  
Your free now  
To know that you are free indeed

To love as He has loved you  
To live like He's among you  
To dream now

To know that you are free indeed

The Son has come to free us  
So set your eyes on Jesus  
Your free now  
To know that you are free indeed

To love as He has loved you  
To live like He's among you  
To dream now  
To know that you are free indeed

The Son has come to free us  
So set your eyes on Jesus  
Your free now  
To know that you are free indeed

To love as He has loved you  
To live like He's among you  
To dream now  
To know that you are free indeed
