

Rain Down On Me

Point Of Grace

Showers of sadness flood my soul
In the dryness of my pain
I watch for the rainbow
When my heart turns gray
As I long for yesterday
I know that I need you
In the time that I stray
So I'll follow like night after day

I need you to rain down on me please pour down your light
For this is my life-line
I need you to rain down on me
The weather is fine when you rain on me
The weather is fine when you rain on me

The power of gladness takes control
When it's streaming from Your face
You vanish my sorrow
You wash it away
Like the sunlight in the rain
I know that I need You
In the time that I stray
So I'll follow like night after day

I need you to rain down on me please pour down your light
For this is my life-line
I need you to rain down on me
The weather is fine when you rain on me
The weather is fine when you rain on me

Holy water falls as I lift my eyes
From my own fate
Then heaven flows straight through my
heart as it carries your embrace

I need you to rain down on me please pour down your light
For this is my life-line
I need you to rain down on me
The weather is fine when you rain on me
The weather is fine when you rain on me

The weather is fine when you rain on me
