

## All the Way

Poison Girls

There are still ways of touching me  
There are still things to say  
There are still ways of moving me  
There are still ways to play  
There are still ways of making it  
Don't leave me alone  
There are still ways of touching me  
Body and soul  
GO all the way  
Feel me  
Hold my hand all the way

It can't be all over now  
Can't be over so soon  
There are still ways of loving me  
There are still things to do  
There are still ways of touching me  
All the way to my heart  
Don't play into the hands  
Of those who want us apart  
Go all the way  
Feel me  
Hold my hand all the way

There'll be new ways of knowing me  
New feelings to show  
Still places for taking me  
There's still further to go  
There are still ways of moving me  
I love you so much  
There are still ways of making it  
Keeping in touch  
Go all the way  
Feel me  
Hold my hand  
Go all the way  
Feel me  
Take my hand  
Go all the way  
Take me in your hand  
All the way...
