### Poison Girls

I get my money just once a week  
Then I go walking in the High Street  
All those posters try to catch my eye  
Saying come in and buy me  
I said 'my money's  
just as good as the rest'  
You tell me straight  
you only deal in the best  
You say 'I'm not trying  
to mess you about  
But I'm afraid that I'm just clean out'

I don't believe you when you say  
You ain't got what I want

I met some people  
that really ought to know me  
I'm coming on strong and they're  
coming on slowly  
Talking to them  
just trying to get through  
They say 'Come back  
with something new'  
My ideas - they're as good as the rest  
You tell me straight  
you only deal in the best  
You say 'Don't come here  
wasting my time'  
You say 'I'm not a musician  
but the company's mine'

I don't believe you when you say  
You ain't got what I want
