

Dirty Work

Poison Girls

Bombing cities pulling switches
We won't do your dirty work
Bombing cities pulling switches
We won't do your dirty work
We won't do your dirty washing
We won't do your dirty work
We won't sterilize your dishes
Screw your dirty work

Bombing cities pulling switches
We won't do your dirty work
Making death is full employment
We won't do your dirty work
Bombing cities bombing people
While you eat your dirty meal
We won't serve you at your table
Screw your dirty deal
We won't make your dirty weapons
To defend your dirty law
All that's left is dirty water
Watch the automatic door
We won't clean the dirty basin
Blood that sticks to stainless steel
We won't do your dirty washing
War machine is bloody real

Contribution to appeasement
Pay the economic whore
Flesh and blood on dirty linen
All that's left is dirty air
We won't make your dirty weapons
To defend your dirty cause
All that's left is dirty water
We don't want your dirty war

Ask yourself what else
Ask yourself.
