

Done It All Before

Poison Girls

I've done it all before
Losing my head, sharing my bed
Love in the bath, love on the floor
Done it all before
Words in the dark, breathing too fast
The door closes gently
We're touching at last
I want to hold you, I want to keep you
Take it easy, let's take it slow
Make it last, don't want to lose it
Love will die, love will go
I've done it all before but not with you
I've done it all before
Sharing my head, losing my bed
Love by routine, a matter of course
I've said it all before
Words in the dark, raising my voice
The heart beats the silence
And then the remorse

I want to hold you, I want to keep you
Take it easy, let's take it slow
Make it last, don't want to lose it
Love will die, love will go
I've done it all before but not with you
Nothing we say can be trusted
Nothing we say is a lie
Nothing we do will be wasted
Nothing we will survive

It always happens again
No need to worry, no need to cry
Another face another time
It always happens again
Another chance, another story
Another dream to wake up from
When we've had our time
But this is now love, it's you and me love
Take it easy, let's take it slow
Make it last, don't want to lose it
Love will die, love will go
I know
I've done it all before
But not with you
