

## Mirrors and Glass

### Poison Girls

I fell through mirrors  
I fell through mirrors and glass  
Ran wild round a corner  
I jumped off a train  
Running down the subway steps  
In the pouring rain  
Ran away one bad time, I jumped off a bus  
You'll never see my face again  
What became of us  
What became of us - What became of us

Crazy in a southern town  
one summer and a day  
I ran wild one more time  
shouting out your name  
Running through the empty streets  
running from the past  
You'll never see my face again,  
that time was the last

I fell through mirrors  
I fell through mirrors and glass  
What became of us - What became of us

Hid deep on the ocean bed,  
hid deep in a grave  
Climbed a frozen mountain,  
jumped out from a plane  
Ran through forest fire,  
running from the past  
You'll never see my face again  
that time was the last

I fell through mirrors  
I fell through mirrors and glass  
What became of us - What became of us

Buy another ticket,  
to someone else's place  
Look in someone else's eyes  
in someone else's face  
Run through red hot coals  
run through broken glass  
You'll never see my face again  
that time was the last

I fell through mirrors  
I fell through mirrors and glass  
What became of us - What became of us
