

Coming back from spending feeling  
Beaten back by daring to beat  
The rising cost of seduction -

Not only is it unlucky to step  
On the cracks between the paving stones  
It's not even safe to step on the spaces

Trying to remember  
When the pain in my body  
Became an everyday thing  
Not just something to see the doctor about  
Having read the piece in the paper about  
How alcohol affects a woman's liver  
A vital organic molestation  
I'm sure I got the basic facts straight  
What I really want  
No joke  
Is strong steady fingers rubbing my body  
When I lie down, oh yes

Best keep your interest up Mrs.  
Hang on to your looks a bit Mrs.  
But mind them paving stones

Christ! the bottle's heavy  
Maybe I should get them delivered
