

God Not God

Poison Idea

The great conductor of all corruption
I got the whole world where I want them
Can't revoke that doom of mercy
Don't try to stand up he's backed fully
One day will snap and change my mind?
But how it stands no one gives me time
God not God
The bible screams it's a myth
A masterpiece in fiction
Advent the truth without a trace
But when you leave I take your place
One day one way, will I snap and change my mind?
But how it stands, no one gives us time
God not God
