

# Made To Be Broken

Poison Idea

Fuck you!  
Do this, don't do that  
Breaking rules is where it's at  
And that's the way it's gonna stay  
If you don't wanna try  
You better have a reason why

Pass the laws obey by it  
Break the rules don't give a shit  
I only have one commandment  
Destroy to create, build a new  
Smash the hate

What are they for?  
Why were rules made?  
To be broken!

Who's to blame  
For all your flaws?  
Make abortion outlawed  
And put prayer back in school  
The truth is as clear as a cesspool  
I say piss on all your fucking rules  
From where I stand  
The inside view of a promised land  
Is the inside view of a garbage can  
I'll bite the hand that feeds me shit  
I am getting sick of the taste of it

What are they for?  
Why were rules made?  
To be broken!

Leave the police bleeding  
Leave the churches smoking  
And your rules leave them  
Out in the street because  
Your rules were made to be broken
