## **Thorn In My Side**

## Poison Idea

Here it comes again, a thorn in my side, a set of rules or a se t up, Give me grief and run it in just by the tone of your voice, Something pained the side of me, I can't figure out. All the pressures the day inflicts, All the pain that makes that clock inside your heart tick. Something pained the side of me, I can't figure it out. Destroying me by the tone of your voice Why can't you see that you're losing me, putting me in misery.
