

Can't Bring Me Down

Poison

My chick is driving me crazy
She thinks that I'm lazy
Just because I'm good at nothin all day

My baby don't get it
So my job I quit it
Bust my ass hell I barely get paid

People like to put me down
Just because I hang around
Don't they understand it's my way

Say I say

Everybody tries to break me
Say they love me when they hate me
Baby you just can't bring me down
I've seen long and lonely days
And I have lost and found my ways
Baby you just can't bring me down
Can't bring me down

Baby I'm leaving
You got my heart bleeding
So I'm taking the easy way out

The angel in my head's now the devil in my bed
If my walls could talk they would shout

Baby you can talk and talk
The hurt you cause it just don't stop
I think I'm going out of my brain

I say

Everybody tries to break me
Say they love me when they hate me
Baby you just can't bring me down
I've seen long and lonely days
And I have lost and found my ways
Baby you just can't bring me down
Can't bring me down

I got a car it goes fast
Keep fuzzy dice up on the dash
Got a bumper sticker
Just say PEACE
Keep a gun under my seat
To protect me from the pain
Should your words get in my brain
Can't you love me just the same
Can't you love me just the....

Everybody tries to break me
Say they love me when they hate me
Baby you just can't bring me down
I've seen long and lonely days

And I have lost and found my ways
Baby you just can't bring me down
Can't bring me down
(2x)
