

## Good Love

Poison

Well, I calls my baby on the telephone  
She says hurry home Bret cause I'm all alone  
Oh now giddyap, hurry, and don't be late  
Cause a b-b-b-b-baby I just can't wait

She starts talking dirty right in my ear  
Making herself so perfectly clear  
She needs some good love

So I roll her over in the middle of the night  
and I rock my baby 'til the morning light  
Getting hot....Good love, yeah.

Well the good people say I'm a sinning man  
But if they knew my baby they would understand  
The neighbors keep yelling bout all the noise  
They say the things you're doin' ain't natural, boy

Well my baby she just loves to play  
And I need my baby each and every day  
Need some good love

We're hopping and a bobbin' in the old moonlight  
Rocking and a rolling til the morning light  
Getting hot....good love  
Bring it home

Well my baby she just loves to play  
And I need my baby each and every day  
Need some good love

Well my daddy thinks that I've gone crazy  
And my poor boss swears I'm losing my cool  
But I just want to play with my baby  
If you only knew what she could do

She starts talking dirty right in my ear  
Making herself so perfectly clear  
need some good love

Baby she just loves to play  
and I need my baby each and every day

Start hoppin' bobbin' in the old moonlight

Rocking and a rolling til the morning light
