

Livin' for the Minute

Poison

Two bit Billy was the coolest cat I ever saw
Didn't want no piece of the pie he had to take it all
With his guitar slung low, hanging right above the knees

He made the biggest scene
He made the ladies scream
He had a state fair smile if you know what I mean

He was livin' for the minute
Living his life from day to day
If you want it, then take it
He said:
That's the rules
If you wanna play

Magazines covers always shooting for Billy's face
He score of his ladies chalked up on his guitar case
He was a bad ass rocking, baby, always rolling out the sounds
Like some freight train coming
Did a six string strut
And just tied it down past all the crowd

He was livin' for the minute
Living his life from day to day
If you want it, then take it
He said:
That's the rules
If you wanna play

Better stop and get out, CC
C'mon, c'mon, c'mon!

He was livin' for the minute
Living his life from day to day
If you want it, then take it
He said:
That's the rules
If you wanna play
(2x)
