

One More for the Bone

Poison

Well as she stepped into the room
Right then she got my eyes
She had an ass like a truck
and two amazing thumping thighs

She's big like no other
Just one big fat mother brick house
So impressed by those breasts

One more for the bone
She likes whips and chains and things
One more for the bone
She don't need no diamond rings
Couldn't get her through the door
So I did her on the floor
One more for the bone

Lets get naked baby
And roll under the sheets
I ask one favor baby
Don't roll on top of me

She's my Crisco queen
A non-stop love machine
On the scene like a sex machine
She ain't fakin' when we're makin' bacon

One more for the bone
Sparks may fly like the fourth of July
One more for the bone
Just don't get any in your eye
She's got me on a 2X4
So I don't fall in when she wants more

You got me all night baby
That other woman didn't mean a thing.
Remember it ain't over, baby
Until the fat lady sings

I got excited she through
Her ham hocks over me
One the size of a truck
The other the size of a tree

She whispered in my ear
Just more cushion for the pushin' dear
Can't start a move when you get down to it

One more for the bone
She likes whips and chains and things
One more for the bone
She don't need no diamond rings
Couldn't get her through the door
So I did her on the floor
One more for the bone

One more for the bone

Sparks may fly like the fourth of July
One more for the bone
Just don't get any in your eye
She's got me on a 2X4
So I don't fall in when she wants more
