

# Power to the People

Poison

Power to the.....

Good evening people welcome to my party  
Bring on the night lets get it started  
You want blood on the stage baby you got it

I welcome all the people who truly been my friends  
Fuck all the bitches that broke my heart again  
Love all the women who made my head spin baby  
Because they love me ..  
I can make the sun go down and I say give the power to the people, people

Boss man is someone who always try to break me  
Sick mofos always gotta take me  
In this arena only you can make me

Sex and violence hate love and rage  
I'm pacing like a beast locked in a cage  
I'mma comin I'mma comin I'mma comin of age

But I know you want me  
I can make the sun go down and I say give the power to the people, people

I am the sound and I am the lights  
You are the power that gives me the right  
Together we own the night

So good evening people welcome to my party  
Bring on the night we can get it started  
You want my blood on the stage baby you got it.

Yes we know we love this  
Yes we know we want this

I can make the sun go down and I say give the power to the people  
I can make the sun go down and I say give the power to the.....  
.
