

Ride Child Ride

Poison

Well, I'm sitting here this evening
I got some old friends on my mind, yeah I do
Yeah, me and Slick and Davy saluting Mr. Daniels
For the very first time
We was jamming to old Jimi, singing Purple Haze
No Doubt, no, no
I think between the weed and the whiskey
My head went north and man my feet went south

We had some good times
And man do I remember them well
Those days are long gone
But now I got to tell you just how we left some stories to tell
Ride child ride,
Hell we had some good times then
Ride child ride
sometimes I need those times again
Do you remember when?

Remember all our big talk
How we were going to be president
one day, baby
How we were going to save the whole world
But man I got to tell you lord
Didn't have a clue back then, no.

We had some good times
And man do I remember them well
Those days are long gone
But now I got to tell you just how we left some stories to tell
Ride child ride,
Hell we had some good times then
Ride child ride
sometimes I need those times again
Do you remember when?

Ride child ride
Hell, we had some good times when
Ride child ride
Sometimes I need those times again
Ride child ride
Hell, we had some good times then
Ride child ride
Take me back there, man, do you remember when?
