## So Tell Me Why

I'd like to put to rest the rumours I'd like to put to rest the lies I'd like to throw away the past And show you how I feel inside

I'll be your taxi and your driver
I'll be your road if you need
I'd like to push and push and push
Just to make you pleased

But your river of emotion for me flows like a dried up stream

So tell me why Your satisfaction's like a heart of stone So tell me why Your love reaction chills me to the bone

You make my blood boil hot And my heart beat like a drum I'd like to do to you girl Things that ain't never been done

From the rain I'll be your shelter From the cold I'll be your heat I'll push and push and push just to make you pleased

So tell me why Your satisfaction's like a heart of stone So tell me why Your love reaction chills me to the bone

So tell me your reason for tearing me up inside Girl you gotta tell me why

But your river of emotion for me flows like a dried up stream

So tell me why Your satisfaction's like a heart of stone So tell me why Your love reaction chills me to the bone
