

Queen of the damned the bitch of Hades...the serpent  
Sixes tripled in her flesh  
Lobotomize my thoughts, my mind...unleash me  
Bring forth the perfect sin I crave

Escape from you to stay alive  
Escape from you...the liar  
Yet I crawl to you to feel alive  
I crawl for same desire

And once again...  
She is dancing on my grave  
Whipping shivers down my spine  
She is dancing on my grave  
Pouring down the mercy of death

Queen of the tease the hot and cold...voracious  
So deadly and deceiving eyes  
Lobotomize my thoughts, my mind...release me  
Bring forth the perfect death I crave

I feel you're coming once again
