

# Everything Changes

Pokémon

your hearts beating around the clock,  
Time ticking away it doesn't stop.  
Evolution is taking place.  
The world is spinning and changing every day

Anything you think of with a name,  
there isn't anything in life,  
That ever stays the same

chorus :-

And everything changes, changes,  
Things are changing constantly  
And everything changes, changes  
Its evolutionary  
Everything changes, changes  
Changing all the time,  
Playing with your mind.  
Modified or rearranged  
Everything has got to change.

You take a chance,  
You throw the dice,  
You risk it all - it's just a part of life (just a part of life  
)  
You hold on tight to what you know,  
You can't hold back - You've got to let it go

Every little step that you embrace  
One road ends, another begins  
And takes you to a better place

chorus

[Brock] It's changing!  
[Misty] you're metapod is evolving  
[Ash] oh wow! my metapod evolved into a butterfly!  
[Pikachu] PIKACHU!!!!

oohhhhhhhhh!

Anything you think of with a name,  
there isn't anything in life,  
That ever stays the same

chorus and fades
