

When We Were College Kids

Polar Bear Club

Quick fix movie lines
That saved an evening's way
Every weekend
When we were college kids

Passing highway flower shrines
Meeting you halfway
Every weekend
When we were college kids

There's a now and then
Us and them
So how far down the wellspring now
How far down is your old party dress?

The house band in the dish rack plays
Send in the clowns
Every weeknight
Now that we're ex-college kids

We don't wish for better things
We stare off and we wish that'll
We'll deserve them one day
But our bullshit ex-college ways go forever

There's a now and then
Us and them
So how far down the wellspring now
How far down is your old party dress?

You don't miss people thinking
You'll ever by something
You don't miss people thinking it
Just thinking it with them
