Some of you don't know  
What kind of music we play  
I'm gonna explain it now  
So you will better stay

I believe the best way  
To listen what I say  
Is to move your stomping feet`s  
Right on the second beats

SKA is the rhythm that makes your body move,  
Won't let you stand and brings an exotic groove  
SKA is the power that our engine needs,  
Rude boys and rude girls don't need more than this

Jamaican SKA SKA

Black or white ? NO! We shout black AND white  
If the world accepts this everything will be alright  
This is not easy 'till the Earth has some fools  
Who think they're gods and ignore all rules.
