I don't need your money  
I don't want to know who you know  
All my dreams they died locked up  
Giving you less with each note  
Change the locks  
On your last friend  
Bang and book her  
Court with lies  
Lame duck  
Smoking void  
Irish goodbye  
Effeminate disguise  
I don't need your money  
I don't want to know who you know  
All my dreams they died locked up  
Giving you less with each note  
Have realized  
it's lost on you  
It's lost on you  
Have recognize  
It's lost on you  
It's lost on you  
Have realized  
it's lost on you  
It's lost on you  
Have recognize  
It's lost on you  
It's lost on you  
It's lost on you  
I don't need your money  
I don't want to know who you know  
All my dreams they died locked up  
Giving you less with each note  
Pink dust  
From his lover  
Under the arms  
Of his brother  
Cut throat gets beaten by black coats  
We own ourselves now  
Your name can not be found  
I don't need your money  
I don't need to know what you know  
Have realized  
it's lost on you  
It's lost on you  
Have recognize  
It's lost on you  
It's lost on you  
It's lost on you  
It's lost on you  
It's lost on you  
All the dreams they die locked up  
Giving you less with each note  
I don't need your money  
I don't want to know what you know  
All my dreams they die  
All the dreams they die locked up

Giving you less with each note
