## I Need \$

No one seems to stay they just leave you cold No one seems to know why your love grows old Chasing and wasting for our own desires love what we need until your need grows tired I need money, I need money It's taking me too long for this debt to drop And if it comes to it, I'll be dancing down the table tops Cuz no one can help me now No one can help me now No one can help me now I don't need a love Got enough worry to fill me up I don't need a man, I don't need a man All that he does I can, I can No one can help me now No one can help me now No one can help me now I don't need a man, I don't need a man All that he does I can, I can I don't need a love, I don't need a love Got enough worry to fill me up Had enough Had enough Had enough I don't need a man, I don't need a man No one seems to stay they just leave you cold No one seems to know why your love grows old Chasing and wasting for our own desires We love what we need til the need grows tired No one can help me now No one can help me now No one can help me now Sing it out to some dark cloud Chasing and wasting for our own desires We love what we need until the need grows tired Chasing and wasting for our own desires We love what we love until the love grows tired You love what you love until I grow tired
