

## Kind

Poliça

Nothing to suck or to hold onto to  
I do  
Why would I you told me not to  
For you  
Don't you hold me close but close  
Look at me without my clothes  
I wanna walk alone  
Only breathe I hear be my own  
Tell me now how you feel  
Get happy get right  
Get real  
Whoever I was  
I was your woman  
Whoever you were  
You were my man  
Whoever I was  
I was your woman  
Whoever you were you were my man  
My man  
Pair of hearts hard to find  
a darker kind of mind  
Lost with your hand and time  
Bleak as her eyes  
She was never kind to me  
She was never kind to me  
I don't want it that much  
I don't want it that much  
Whoever I was  
I was your woman  
Whoever you were  
You were my man  
Whoever I was  
I was your woman  
Whoever you were you were my man  
My man  
Don't know my secret  
They die with my life  
Don't know my secret  
They die with my life  
Fever high  
Fever high  
Swim to the side  
Fever high  
Fever high  
swim to the side
