

Lately, we've sleeping with the sun
Seems like we're too comfortable in love
If it's good it's gonna stay
It's gonna be my only way
If it's good it's gonna stay
It's gonna be my only way
If it's good it's gonna stay
Easy to hide away hold up
Better to only touch when we need to touch
If it's good it's gonna stay
It's gonna be my only way
If it's good it's gonna stay
It's gonna be my only way
If it's good it's gonna stay
It's gonna be my only way
If it's good it's gonna stay
Changes, gonna come on quick
We're like wax melting down upon the wick
New one begins and
If it's good it's gonna stay
It's gonna be my only way
If it's good it's gonna stay
It's gonna be my only way
If it's good it's gonna stay
Lately I feel the weight of love
Irreversible damage but it's good,
I'm good
Seems like we're too comfortable in love
Seems like this'll be good for us
