

Vegas

Poliça

Better to sleep through the sunrise
Than to stumble sleeping through the night life
Walking in on a honeymoon
You and me at the corner room
Vectors swoon a white girls view
I'm too big for the swimming pool
Skull bikini for your frilly ass
Hope it's love and I hope it lasts
Ooooooh, you've been mean to me
Whether or not you think it's true
It's good to know that I got my eyes on you
ooooh you been mean to me
Whether or not you think its true
It's good to know that I got my eye on you

You've been, you've been /x3
Don't forget...

The code of boys, I know it well
Curves and colors of a broken shell
Ice is laid upon the tongue
Speech is slow, the mind grows numb
Under covers, his touch is rust
Only one soul that I trust
It can't be us, it can't be us, it can't be us, it can;t be us
Ooooooh, youve been mean to me
Whether or not you think its true
Its good to know that I got my eyes on you
ooooooh, you've been mean to me
Whether or not you think its true
It's good to know that I got my eye on you

You've been, you've been
You've been, you've been
You've been, you've been mean to me
