

# Breathe In Breathe Out

Polly Scattergood

You are constant  
Constant to me

Though you're distant,  
You're my shadow  
Constantly

Yeah, I'm OK  
Thanks for asking  
Wrote too many pointless love songs

Learn to breathe in  
Learn to breathe out  
Can't let you go  
Can't let you go yet

Learn to breathe in  
And then breathe out  
Can't let you go  
I can't let you go yet

I think I felt you disappear, disappear, disappear  
I know it's awful but I'd already said my goodbyes  
And nice to see you, maybe not you  
Lived such a little, but loved such a lot

Learn to breathe in  
Learn to breathe out  
Can't let you go  
Can't let you go yet

Learn to breathe in  
Learn to breathe out  
Can't let you go  
I can't let you go yet

I saw a sparkle  
Felt a tremor  
Then I thought that I saw you in the mirror  
But I must be crazy, I must have lost my mind  
Cos I'm running late over half the time
